From: Dale King, OSERS

A handwritten signature in black ink, appearing to read "Dale King", is written over the name "Dale King, OSERS".

SUBJECT: Paperwork Reduction Act Submissions accompanying the Individuals
With Disabilities Education Act (IDEA) Final Part B Regulations

The purpose of this memorandum is to inform you of the Information Collections accompanying the final IDEA Part B regulations submitted to OMB. The attached chart summarizes the collections and identifies the corresponding regulations that apply to each collection. As requested, we have combined 9 "1820-new" and three previous collections that were included in the NPRM into OMB 1820-0600. The chart outlines all the collections combined into this one collection. We also combined one of the NPRM "1820-new" collections (Identification of State-Imposed Rules, Regulations, or Policies) with OMB 1820-0030.

The collection "Confidentiality Pledge Prior to Commencement of Mediation" that was included in the NPRM is being withdrawn, as it is not longer necessary. Proposed §300.506(b)(9), which required this collection of information, was removed from the Final Part B Rule.

I talked to Rex Shipp, OSEP, regarding the changes to Information Collection 1820-0624. One of the major additions to this collection is the "Related Requirements" Document/Table. This table/document includes a list of the Monitoring Priorities and Indicators and the requirements from the statutes and regulations that are related to each Priority and Indicator. The purpose of this document is to inform States of the statutory and/or regulatory requirements related to each Indicator that will be reviewed by OSEP as part of Focused Monitoring. That is, if OSEP determines that it will do Focused Monitoring in a State because that State is low performing or in noncompliance with a specific indicator, OSEP will review the Related Requirements for that Indicator as part of the Focused Monitoring. OSEP encourages States to examine their general supervision systems to determine how they address these Related Requirements. Please note that the Related Requirements listed in the right column of the Table are abridged statements of the actual language in the statute and regulations. Readers are encouraged to review the full language of the requirements in the statute and regulations to ensure a complete understanding of the requirement.

According to Rex, Ruth Ryder (MSIP Director) and our OGC feel that, because of the changes that have been made to the Indicator Measurement Table, as well as by adding the Related Requirements Table, the public should be given an opportunity to see the "modified" collection before it is given final approval.

Thanks for all your assistance. If you have any questions please do not hesitate to give me a call at (202) 245-7405.
